Kolkata, West Bengal - 700074, India

OBJECTIVE

To thrive in a challenging and professional environment by continuously learning new technologies and applications, contributing to the organization's success, and driving personal growth and development. Eager to leverage innovative solutions and collaborate with diverse teams to overcome obstacles and achieve strategic objectives.

SKILLS

- **Programming Languages:** C, Java
- **Web Technologies:** HTML, CSS, Bootstrap, Laravel
- **Database Systems:** Oracle, MySQL, PostgreSQL
- **Programming Tools:** Eclipse, Visual Studio Code
- **Machine Learning:** Numpy, Pandas, scikit-learn
- **Tools:** Cisco Packet Tracer, Spring Boot
- **Soft Skills:** Creative, Hardworking, Team Collaboration

EDUCATION

- **University of Calcutta** 2023 - Present
MCA Kolkata, India
 - SGPA: 8.91(1st Semester)
 - SGPA: 9.05(2nd Semester)
 - SGPA: 8.36(3rd Semester)
 - CourseWork: DSA, Advanced DBMS, Advanced Networking, Machine Learning, Data Science, IoT and Embedded Systems, Cryptography
- **Vidyasagar College** 2020 - 2023
B.Sc in Computer Science Kolkata, India
 - CGPA: 8.183
 - CourseWork: : C Programming, Digital Logic, DSA, DBMS, Networking, Operating System, Java, Python, Theory of Computation, Computer Architecture, Computer Graphics, Microprocessor, OOPS
- **Dum Dum Road Govt Sponsored (H.S) For Girls** 2020
Higher Secondary (10+2) Kolkata, India
 - Percentage: 93.2
- **Dum Dum Road Govt Sponsored (H.S) For Girls** 2018
Secondary (10) Kolkata, India
 - Percentage: 90.3

PROJECTS

1. **VM Utili Predict**
Description: Developed a predictive model to forecast CPU utilization of virtual machines based on historical CPU utilization data that aimed to optimize resource management and enhance data center efficiency by accurately predicting future CPU demands
Achievement: Achieved accurate CPU utilization prediction for virtual machines using linear regression, enabling efficient resource planning and utilization decisions.
2. **Smart Air Quality Monitoring ,Gas Leakage Detection and Safety Measures**
Description: Developed an integrated system for real time monitoring of air quality and detection of gas leaks to ensure safety in indoor environments
Achievement: Engineered a robust system that integrates advanced sensors to monitor air quality.
3. **Play Fusion**
Description: Engineered an online gaming application that allows users to enjoy playing free games while incorporating download functionalities.
Achievement: Developed an intuitive user interface for seamless gaming experiences.

CERTIFICATION

CSRBOX –Data Analytics Certification: Completed a comprehensive program covering data analytics tools, techniques, and applications.

INTERNSHIP

Intern, National Informatics Centre (NIC)
Currently doing an internship.

2025 – Present
